

Pte. Ken H. McPhee, Again Wounded

A wire was received on Saturday last from Ottawa officially informing Mr. and Mrs. W. H. McPhee, who reside on a farm eight miles northwest of Gleichen, that their son, Private Kenneth H. McPhee, had been wounded for the second time. This time the message news is that he was wounded in the shoulder by shrapnel.

"Ken" volunteered from Gleichen in 1916 and is now only 23 years of age. In December of last year he was wounded in the hip, after only spending nine days in the trenches. Later he was removed to England, where he remained until April last, when he returned to the trenches and he remained almost continuously since. As will be seen in the letter appended, Ken has been awarded a military medal.

France, Sept. 24, 1918.

Dear Mother,
Things are about as usual here, and we are out for a few days again. We had a pretty hard time on the last trip in, as Fritz was using quite a lot of gas, but I managed to stay clear of it.

It seems ages since I had any mail from home, so thought I had better get busy and write some letters in hopes of getting some replies.

When you write again you might address my mail to the Headquarters, as I am transferred to Headquarters now, and have a pretty good job now slipping.

Say, mother, if you get the Gleichen Call I would like it if you would forward it on to me, as I would enjoy it.

I suppose someone has told you before now that I got a military medal during the big push.

I saw Allen Quenell when we came out on this trip and he is looking fine. Have not had a letter from Fern for a long time, but hear from Grimes quite often. He is still in England and I hope he don't have to come out again, for he has made three trips now.

I get letters from Fred's chum, Syd, regularly, and he certainly seems like a fine fellow.

A \$100 Victory Bond Will:

Pay 80 man for 1 day, or, 800 rifles and their transport, or 110 bands of each, or, 8 1/2 min. field gun shell, or, 200 hand grenades, or, T.N.T. for the burning of each of a 14 inch shell, or, 4 incendiary airplane bombs, or, provide 25 lbs. of other for machine, or, 145 bot water bags, or, pay Canada's war bill for 6 seconds.

J. A. Ramsay, who is leaving in a few days is offering his household effects at private sale. Including range, sewing machine, tables, bed room furniture, kitchen utensils, etc. Goods can be inspected at house.

Western Canada scored high at the International Soil-Products Exposition at Kansas City, capturing a total of one hundred and four prizes. These include first, second, third and sweepstakes in wheat; first, second, third and sweepstakes in oats; first, second, third and sweepstakes in barley; first and second in flax. Seager Wheeler, of Rouleau, Saskatchewan, won first, sweepstakes and the \$500 silver cup offered by the Canadian Pacific Railway Department of Colonization and Development for the best half-bushel of hard spring wheat. H. B. Shreeley, of High River, Alberta, was second in this competition. Nick Tattinger, of Claresholm, Alberta, won first in sweepstakes for barley; Vegetable of Manitoba first for state produce collection; Kidson first for country vegetable collection.

Pte. E. M. Dickinson, 1009097, of Hirtle, S.M., has been awarded the Military Medal for bravery displayed at the battle of Passchendaele, having returned under heavy fire to rescue a comrade. Pte. Dickinson enlisted with Col. Gillespie's 28th Battalion and transferred overseas to the 43rd. Presentation was made by Sir Robert Borden at Seaford Camp, England, on Aug. 9. He is only 27 years of age and is the only son of S. M. Dickinson, of the Indian Agency at Hirtle. The young man loves fighting stock on both his father and mother's side. He is a grandson of the late Col. Dickinson, distinguished in the Canadian rebellion of 1837.

The above was culled from the Winnipeg Free Press and accompanied by a very good cut showing Pte. Dickinson in his uniform. Eric it well known to Gleicheners, as he attended public school here for a number of years, when his father held a position here on the Blackfoot Indian Reservation, both of his parents being very popular while residing here. Mr. Dickinson is the gentleman who gave the name to The Call and who also contributed a number of articles to this paper that were read with much interest.

"Your for Victory Loan 1918," is the letter writer's slogan in the Victory Loan campaign. Every one is asked to sign for or her letters in this way. Al-ready some are doing it, and before long everyone will be doing it. It is hoped the practice will be general. It is an easy and yet most effective way of driving home the appeal for the Loan, and it will reach practically everyone. Business men particularly are requested to adopt the idea. As they read their incoming and outgoing letters, during the next few weeks, they will confront "Your for Victory Loan 1918" scores of times each day. Start now signing your letters in this way. Get into the swing! Every little bit is needed if Canada is to go over the top."

FOR SALE—300 tons best prairie hay, baled 100 per ton P.O. box 100, St. Boniface, Manitoba. 30

FOR SALE—Red Island Red house with 1000 sq. ft. of land. 30

FRUITS—Grey mare, branded 6 on left shoulder, black year old, can walk to head, 100 lbs. weight, 800 lbs. weight. Notify Call office or return to Post Office, 1 mile south of Hirtle. 30

FOR SALE—300 tons of quality hay at 45 per ton in the stack. Apply Chris Bank, Quamquam. 30

We Apologize

The doctor says we have not the "flu", but the Call staff sure has something that has knocked all the work, ambition and everything else good in us out.

Each day for the past week we have made brave attempts to get down to work and supply our readers with some news, but it is of no avail.

We apologize, and leave the humble to the kind-hearted readers to forgive us.

Gleichen Fortunate In Regards Spanish Influenza

Gleichen so far has been most fortunate in regard to the Spanish Influenza. Although quite a number of cases have been reported and many others have suffered from severe colds, only one fatal case is reported and that just as we go to press, of Mr. Goldsmith who resides 19 miles northeast of town, particulars of which are not available for this issue. The Gleichen health officers have proved their worth and after securing a nurse had rooms over the Royal Bank transformed into a hospital to where the patients from the hotels and other public places were moved.

For the advantage of the travelling public it may be said our hotels are quiet, the few cases reported from them having either recovered or been moved to the new hospital.

Facts About the Victory Loan

Details of Price and Payments Explained—Southern Alberta Executive Maps Appeal

Five hundred million dollars is the amount required to be raised by the national government to carry on the war in the prosecution of the war. The minimum amount which must be raised is \$100,000,000. The larger amount will be raised if possible.

There are no longer bonds in this case. Five and ten-year bonds will be issued in the new war bonds. The new war bonds will be issued in the new war bonds. The new war bonds will be issued in the new war bonds.

The details of the loan follow. Through the prospectus of the first issue of the new war bonds, \$100,000,000 will be raised. The new war bonds will be issued in the new war bonds.

NOTICE TO SOLDIERS ON HARVEST LEAVE.

Attention is directed to a recent announcement published in the Press by the Military Service Branch, Department of Justice, regarding extensions to be granted to men EXEMPTED AS FARMERS.

It is pointed out that this DOES NOT IN ANY WAY AFFECT MEN WHO HAVE BEEN ORDERED BY THE REGISTRAR TO REPORT TO DEPOT BATTALIONS and who have thereafter received leave of absence from the Military Authorities.

Once a man has been ordered to report for duty by the Registrar he leaves the jurisdiction of the Registrar and comes under that of the Department of Militia and Defence, and is to be considered as a soldier. This applies to men of the 10 to 25 Class who have been ordered to report by the Registrar in virtue of the cancellation of exemptions by Order-in-Council of the 10th April, 1918, as well as to those ordered to report in the usual way on refusal of claim for exemption, or on expiration of exemption granted.

All men, accordingly, who have been ordered to report, and are therefore SOLDIERS, and who have subsequently been granted harvest leave by the military authorities MUST NOTWITHSTANDING THE NOTICE ABOVE REFERRED TO, REPORT ON THE EXPIRATION OF THAT LEAVE, unless they are notified to the contrary by their Commanding Officer or by general notice published by the Department of Militia and Defence.

WOOD'S VALUE AS FUEL.

Heat Value Depends on Amount of Moisture Present.

Persons who plan to relieve a coal shortage this winter by burning wood can figure, roughly speaking, that two pounds of seasoned wood have a fuel value equal to one pound of coal, according to experts. While different kinds of wood have different fuel values, the foresters say that in general the greater the dry weight of a non-resinous wood the more heat it will give out when burned.

For such species as hickory, oak, beech, birch, hard maple, ash, locust, long-leaf pine or cherry, which have comparatively high fuel values one cord, weighing about 4,000 pounds, is required to equal one ton of coal.

Weight for weight, however, there is very little difference between various species. Resin affords about twice as much heat as wood, so that resinous woods have a greater heat value per pound than non-resinous woods.

The available heat value of a cord of wood depends also on the amount of moisture present. When the wood is green part of the heat which it is capable of yielding is taken up in evaporating the water. The greater the amount of water in the wood the more heat is lost.

Where wood is to be burned in a stove or furnace intended for coal it will be found desirable, the foresters say, to cover the grate partly with sheet iron or firebrick to reduce the draft. If this is not done the wood is wasted by being consumed too fast, and makes a very hot fire, which, in a furnace, may damage the fire box.

It is pointed out, however, that heat value is not the only test of usefulness in fuel wood, and since ninety-five per cent. of all wood used for fuel is consumed for domestic purposes, largely in farm houses, such factors as rapidity of burning and ease of lighting are important.

Each section of Canada has its favored woods, and these are said to be, in general, the right ones to use. Hickory, of the non-resinous woods, has the highest fuel value per unit of volume of wood, and has other advantages. It burns evenly and, as housewives say, holds the heat. The oak comes next followed by beech, birch, and maple. The white pines have a relatively low heat value per unit of volume, but have other advantages. They ignite readily and give out a quick, hot flame, but one that soon dies down. This makes them favorites with rural housekeepers as a summer wood, because they are particularly adapted for hot days in the kitchen. The same is true of gray birch or "white birch," as it is often called in the regions in which it abounds.

Range Horse Steak.

As a partial solution of the meat problem W. F. Butler, a well known man in the Western States, is urging the slaughter of the range horses of the North-West which, he declares, are unprofitable for their present purposes.

Hundreds of thousands who cannot afford to buy beef would by this means be supplied with meat, he declares, and \$10,000,000 to \$15,000,000 in cash would be the return. Such a course would also help to relieve the hay shortage and provide range for 1,000,000 cattle and several million head of sheep, he believes.

"There is no staple market for the lightweight horse at the present time," he declares in a statement on the subject. "Its day of practical usefulness is practically at an end. It is a hay-destroyer—a live liability rather than a live asset. This does not apply to the general utility draft horse. The farm draft horse is an asset to any country, and will remain an asset just as long as farmers plow and man grows crops for his sustenance."

"Throughout the North-West I could say that there are over a million such animals. Among certain people there is an inherited prejudice against horse flesh, but there are many people who have not a prejudice against this food. In many countries it has been used for hundreds of years as a food product, and at the present time it is offered for sale in New York, Cincinnati, and St. Louis."

"In food value horse flesh is about equivalent to lean beef. From a sanitary standpoint, the horse is one of the cleanest animals living. Its habits require that it eat the purest food and drink the best of water. It lives in the open and is free from transmissible diseases than are either cattle or hogs."

"I am of opinion that there will be no difficulty in obtaining a steady supply of horse flesh for some time to come. We received a communication several days ago from one of the large Western horse markets saying that it would contract to supply 5,000 horses monthly for the next twelve months."

His Superior.

The son of the well-to-do family and recently joined up as a private, and was spending his Christmas leave at home. Returning from a walk, his mother espied a figure in the kitchen with the housemaid. "Clarence," she called to her son, "Mary's got some one in the kitchen. She knows perfectly well that I don't allow callers. I wish you'd go and tell the man to leave the house at once." Clarence duly departed to the kitchen, but returned in about half a minute. "Sorry, mother, but I can't turn him out." "Can't turn him out? Why on earth not?" "He's my sergeant!"

Athlete Killed in France.

Eddie Roberts, a well-known Ottawa lacrosse and hockey player, was killed in the fighting in France a week ago. Roberts went overseas with the 207th, and was transferred to a machine gun squad. He was a brother to Dr. Gordon Roberts and Dr. Laurie Roberts, Montreal, Ottawa, and McGill athletes.

War Efficiency and National Prosperity

More than a billion and a half dollars distributed in Canada for exported agricultural produce and the products of labor in the fiscal year ending March 31, 1918, has kept Canada busy and prosperous in spite of the war.

CANADA'S production in such enormous quantities was made possible only by the money received through Canada's War Loans. Canada thus was enabled to assist the Allies in their purchases here by establishing financial credits for their use in this country.

CANADA'S war loans not only have sustained Canada's war effort, but they have kept the wheels of production turning as they never turned before.

This is the flood of cash which poured in to Canada's farms for their exports in the fiscal year 1918, for:—

Butter.....	2,000,000
Cheese.....	36,602,000
Eggs.....	2,271,000
Oats.....	37,644,000
Wheat.....	366,341,000
Flour.....	95,896,000
Meats.....	76,729,000
Vegetables.....	19,034,000

Over six hundred and thirty-six million dollars for exported farm products alone!

AND the workers of Canada also shared greatly in Canada's export trade.

For their products there was distributed in Canada, during the year:

Munitions.....	\$450,000,000
Metals.....	92,083,000
Vehicles.....	22,776,000
Wood Pulp and Paper..	59,599,000

These huge sums were spent in Canada by the Allies.

Canada's own war expenditure for the fiscal year 1918 was \$342,762,000.

And the bulk of all these expenditures, the foundation of Canada's prosperity and war effectiveness, was made possible only because the subscribers to Canada's war loans furnished the working capital.

CANADA must keep this great work going—must produce as never before; must work, fight, save and lend as she has never yet done to bring victory and a lasting peace to a war-ridden world.

But Canada to-day (thanks to her great export trade), is in a better position now than ever, to carry on.

The Victory Loan 1918 will keep Canada busy, will enable her to maintain her great export business; and it will make Canada more efficient than ever, because her prosperity will not be diminished and her determination to work, fight and win will be stronger than it has ever been before.

Get Ready Now to Buy Victory Bonds

Issued by Canada's Victory Loan Committee in Co-operation with the Minister of Finance of the Dominion of Canada.

Bazaar for Cluny Red Cross Nov. 23rd

On Friday, November 23rd, the ladies of the Cluny Branch of the Red Cross Society intend to hold a bazaar in the Cluny Schoolhouse. Those who attended the entertainment last year put up by these ladies will still retain pleasant memories of the good time they enjoyed and will be most anxious to attend another such function. This one will be very much along the same lines only the ladies are quite determined to make it greater and better in every possible respect. Afternoon tea will be served and a fine supper for 50 cents. The bachelors will surely bear this last in mind. Contributions will be gladly received by the secretary, Mrs. D. Nelson, Cluny. Watch for more particulars of the bazaar and entertainment.

BUY AN IRRIGATED FARM BECAUSE:

Irrigation makes the farmer independent of rainfall, and in sure good crops, not occasionally, but every year.
Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures good returns in dairying and mixed farming.
Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.
Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$50 per acre, with 20 years to pay and the privilege of a loan of \$2,000 for improvements (6% interest) no principle after first payment until end of fourth year, reduced interest if settlement conditions are complied and no water rental for first year. Contract can be paid off before maturity if desired.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to **ALLAN CAMERON, Gen. Supt. of Lands** Canadian Pacific Railway, Dept. of Natural Resources, 928 1st. St. E. CALGARY, ALBERTA

Most Heat from Fuel

One reason why the Kootenay Range gives the most use of the heat generated from the fuel, is that the grates have ample vents to make perfect combustion in the firebox, which is properly and scientifically proportioned according to the needs of the range.

AFTER THE WAR.

An American Discusses the Status of This Country.

To Canada is devoted a special article in a series now running in the New York Times under the general heading, "America After the War," and seeing that the author is "An American Jurist," it is natural that the subject should be dealt with thoroughly. The writer sees in the possible future developments in this country a menace to the United States. He tries to forecast what might happen in the event of Canada's national status being altered. He points out that his own people have never given to Canada the consideration which she deserved, and fears that in this country the terms of future trouble for the United States. It is here that he makes his great mistake. No matter what may lie in store for Canada, this country will never be a menace to the United States. That some change in our relationship to each other is certain to follow the war and may be desirable from the point of view of both Canadians and Americans can be taken for granted without forebodings. Whatever happens to Canada, she will regard the United States as her friend.

The writer says that there have been occasions in our history when this country might have become part of the United States, with no objection raised by Great Britain, and with the good-will of the majority of Canadians, had it not been for the indifference or even hostility of American statesmen to the scheme. He says that far-sighted American public men considered the grave danger of Canada as part of the American Union adopting one of the two political parties there as the Canadian party. If the provinces of Canada, as states in the union, declared for the Democrats they would undoubtedly put the Republicans out of business, and similarly would destroy Democratic hopes of success if they all voted Republican. At present the balance between the two parties in the United States is fairly even, a condition which is supposed to conduce to good government. This balance might be destroyed should Canada enter the union.

The writer says that the United States could not afford to look on unmoved if as a result of the war Canada was drawn closer in the bonds of the British Empire, and therefore became more interested in European, African, and Asiatic politics. He does not develop this point, and one is left to guess just what would menace the United States in such an arrangement, and since the British Empire in the past has been quite the reverse from a menace to the United States it is difficult to understand upon what he justifies his forebodings. But he is convinced that Canada is destined with the rest of the overseas dominions to become more tightly knitted to the British Isles, to become part of the United States, or to achieve independence. On the latter point he wastes good valuable white paper by talking about an independent Canada, whose "neutrality" would be guaranteed by a combination of European powers. If Canada ever becomes independent she will never become a nation. We think the

The Safest Place to Trade

Webster Bros. Introduction and Ramsay's Farewell Sale

In now over and just here we wish to express our gratitude to the buying public for the enthusiastic response to our efforts. We set a conservative estimate in what the results of our sale should be and we are happy to say we went away beyond our highest hopes. [This proves our advertising and prices were genuine and that the people knew they were getting values.

The Future

That's the word and the task set before us of keeping the Busy Store business, handed over to us by Mr. Ramsey, up to its present high standard is what we now intend to do. Busy Store customers of the past will find us spending no efforts to keep this corner the busiest spot in Gleichen. We have a large stock of fall goods to draw from and new and late shipments arriving and we respectfully solicit the patronage and support of the district. Our Gleichen manager, Mr. L. M. Webster, will be glad to meet personally all the patrons of this store and he will make every effort that our service and attention shall be such as shall merit a continuance of the relationship of the past.

Yours Respectfully,

Webster Bros.

Successors to J. A. Ramsay.

NAMAKA

The whist drive and dance held in the L.O.O.F. hall on Friday, the 18th, under the auspices of the U.F.W.A., resulted in \$54 being contributed to the Navy League.

Gus Marcy, who left with the 82nd Batt., writes from Bexhill Camp, England that he expects to go back to the front in a week's time as a lieutenant. This is the first of Namaka's men to gain a commission at the front and we all feel proud of "Gus."

Mr. and Mrs. George Peterson left on Sunday to visit Mrs. Peterson's brother, who is a farmer at Bird Island. Mr. Peterson has just finished a successful run of threshing with Jane Thorsen.

Semi-Ready Agency

Semi-Ready Made to Measure Clothes are sold at the same price all over Canada. A large range of samples to choose from. Order your fall suit and overcoat now, from \$28 up.
